CERAMIC COATINGS OF THE FUTURE

Aqueous Guard™ Marine

Innovation for Lasting Protection and Beauty

When protecting vessels, there is no room for compromise. That's why Captains, Refinishers and Management companies trust **Aqueous Guard™ Marine** for a top performing, innovative ceramic clear coat that is designed to protect assets under the harshest of conditions, so your assets spend less time undergoing maintenance and more time out at sea.

Superior durability, combined with consistent premium quality results, is why **Aqueous Guard™ Marine** is the leader for super yacht coatings.

The Science of the Coating

Aqueous Guard™ Marine quickly and effectively penetrates into surfaces to seal microscopic cavities, leaving a shiny smooth surface that is highly resilient to stains. The coating is harder than the paint it seals and improves scuff resistance from general washing.

Other Products at Aqueous Guard™

We don't stop at ceramic coatings, we have the latest technology coatings for glass, metal surfaces, marble, upholstery, teak, leather and stone, all with the same focus, to create a surface that is stain resistant and easy to maintain.

Service we offer

At **Aqueous Guard™**, we do all the work from quotation, project managing, preparation and application, to handing over the **Aqueous Guard™ Shampoo** to maintain your new high gloss finish.

Whether its old or new surfaces, we have a full system that is carried out by our own trained and certified applicators for a high quality service that we pride ourselves on.

Why Choose Aqueous Guard™ Marine for exterior coatings?

- Up to two year warranty.
- Speedier cleaning, reducing down time
- Maintains a high gloss
- Prevents soot and exhaust gas staining
- Creates a harder yet flexible surface
- Removes the need for frequent polishing
- Withstands harsh chemicals
- Cleaning can be carried out with just water and a mild soap
- Specialist certified application partners to ensure a hassle free service from start to finish
- Removal gel to easily remove the coating

Aqueous Guard™ Marine will prevent diesel fumes from permanently staining paints & gel-coats, retaining the original high gloss and eliminating the need to polish continuously. With its hard, durable, scratch-resistant nature, Aqueous Guard™ Marine retains its high gloss against washing chemicals and fenders

After Care

It is often asked how to maintain the surfaces of the vessel once a coating has been applied. With Aqueous Guard™ Marine applied, the maintenance is very easy, simply rinse, wash and rinse again, for that just coated look. With every job carried out by Aqueous Guard™, we will supply you a gallon of Aqueous Guard™ Shampoo that is eco friendly, high concentration and bio-degradable. For further product that we recommend with our coatings and to maintain your warranty, contact: info.marine@aqueousguard.com

AQUEOUS GUARD™ CLEAR COAT

CERAMIC COATINGS OF THE FUTURE

Durable hard ceramic clear coat, to stop chemical attack & staining, whilst increasing gloss and depth of colour, for: hulls, waterlines, and transoms.

Application: Roll and tip.

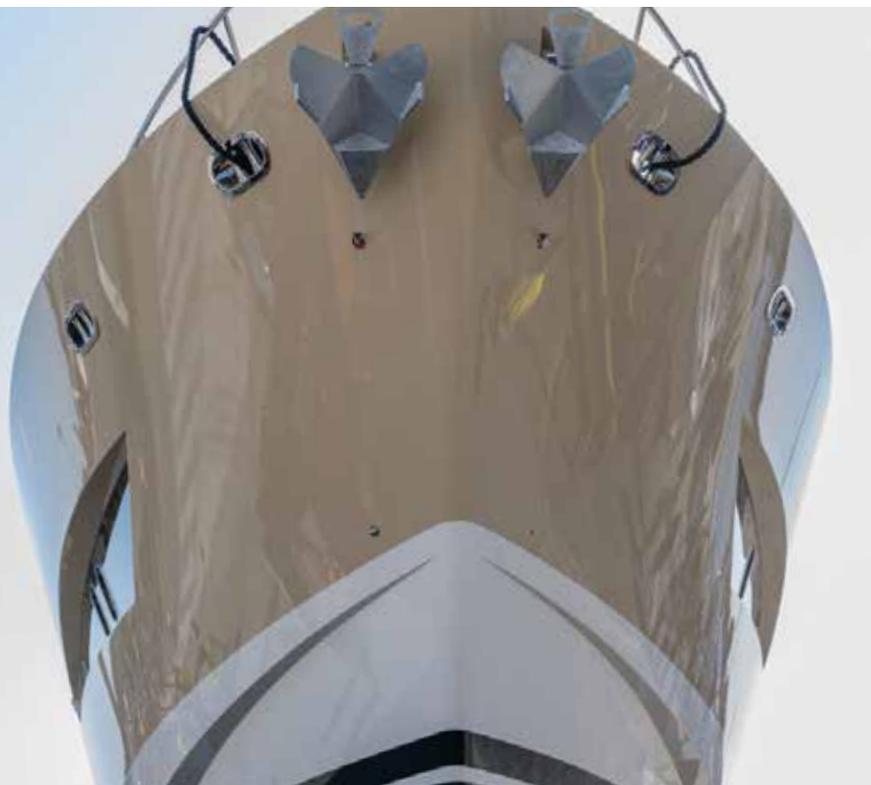

Warranty: Up to 2 years (depending on condition of paint)

GRP PAINT METAL

- 2 YEAR WARRANTY
- HIGH GLOSS
- EASY CLEANING
- REDUCED MAINTENANCE
- REDUCED CLEANING TIMES

PROTECTION FOR YOUR VALUABLE ASSET AGAINST:

- UV
- DIESEL STAINING
- SALT WATER
- OXIDATION
- ACID RAIN

PRODUCT DETAILS

PROPERTIES / PRODUCT DESCRIPTION

Aqueous Guard™ Clear Coat is a coating solution that protects smooth, non-absorbent surfaces against salt spray, diesel and acid rain staining. Clear Coat forms a permanent barrier layer that bonds chemically with the substrate, curing at room temperature and atmospheric humidity.

The surface protected with Clear Coat can be cleaned repeatedly without degrading the coating.

Clear Coat is suitable for polished, non-absorbent surfaces such as two-component paints, GRP, aluminium & stainless steel.

Clear Coat can be removed using a specific acidic water based gel that does not affect paints and gel-coats.

TECHNICAL DATA

Appearance: Clear / colorless liquid | Binder base: Organic silane/ SiO₂ | Solvent base: Low VOC | Thickness cured: ~12um nominal (+/- 2um) | UV: Stable

AQUEOUS GUARD™ HYDRO COAT+

A ceramic top coat to prevent chemical attack & staining, whilst increasing gloss depth of colour and creating a water-beading effect, for: hulls, transoms & superstructure. Application: Specialist hand application. Warranty: 9 months.

GRP PAINT METAL

- 9 MONTH WARRANTY
- HIGH GLOSS
- EASY CLEANING
- REDUCED MAINTENANCE
- REDUCED CLEANING TIMES

PROTECTION FOR YOUR VALUABLE ASSET AGAINST:

- UV
- DIESEL STAINING
- SALT WATER
- OXIDATION
- ACID RAIN

PRODUCT DETAILS

PROPERTIES / PRODUCT DESCRIPTION

Aqueous Guard™ Hydro-Coat+ is a coating solution that protects smooth, non-absorbent surfaces against salt spray, diesel & acid rain staining. Hydro-Coat+ forms a permanent barrier layer that bonds chemically with the substrate curing at room temperature and atmospheric humidity.

The surface protected with Hydro-Coat+ can be cleaned repeatedly without degrading the coating.

Aqueous Guard™ Hydro-Coat+ is suitable for polished, non-absorbent surfaces such as two-component paints, GRP & plastics.

TECHNICAL DATA

Appearance: Clear / colorless liquid | Binder base: Organic silane / SiO₂ | Solvent base: Low VOC | Thickness cured: ~1.5-2.5um | UV: Stable

AQUEOUS GUARD™ GLASS COAT

Thin liquid SiO₂ coating to prevent chemical attack & water spotting, whilst increasing gloss, visibility and creating a stain free water beading surface for: All glass substrates.

Application: Wipe on wipe off. Warranty: 9 months.

ALL GLASS SURFACES

- 9 MONTH WARRANTY
- EASY CLEANING
- REDUCED MAINTENANCE
- REDUCED CLEANING TIMES

PROTECTION FOR YOUR GLASS AGAINST :

- WATER STAINING
- ABRASION
- SALT
- CALCIUM

PRODUCT DETAILS

PROPERTIES / PRODUCT DESCRIPTION

Glass Coat has been developed and tested to protect your vessels' glass from water staining, abrasion, salt & calcium.

Glass Coat gives your glass hydrophobic properties, seriously reducing the maintenance and detailing time. Water beads and rolls off the glass making it the ideal solution for those hard to access areas.

The glass surface protected with Aqueous Guard™ Glass Coat can be cleaned repeatedly without degrading the coating.

TECHNICAL DATA

Appearance: Clear / colorless liquid | Binder base: SiO₂ | Thickness cured: ~0.5um | UV: Stable.

AQUEOUS GUARD™ METAL COAT

Thin ceramic top coat to prevent chemical attack & staining: Stainless steel, copper, brass, aluminium, bright works.

Application: Wipe on wipe off.

Warranty: 12 months

ALL METAL SURFACES

- HIGH GLOSS
- EASY CLEANING
- REDUCED MAINTENANCE
- REDUCED CLEANING TIMES

PROTECTION FOR YOUR METALWORK AGAINST:

- UV
- DIESEL STAINING
- SALT WATER
- OXIDATION
- ACID RAIN
- PITTING

PRODUCT DETAILS

PROPERTIES / PRODUCT DESCRIPTION

Aqueous Guard™ Metal Coat is a coating solution that protects all types of metal against salt spray, diesel staining & acid rain staining. Metal Coat forms a permanent barrier layer that bonds chemically with the substrate, curing at room temperature and atmospheric humidity. The surface protected with Aqueous Guard™ Metal Coat can be cleaned repeatedly without degrading the coating.

TECHNICAL DATA

Appearance: Clear / colorless liquid | Binder base: Organic silane / SiO₂ | Thickness cured: ~3.0-5.0um | UV: Stable | Solvent Base: Low VOC

AQUEOUS GUARD™ MARBLE COAT

Durable hard ceramic clear coat, to stop chemical attack & staining, whilst increasing gloss and depth of colour, for: marble, granite, other polished stone, Application: Roll and tip, Warranty: Up to 1 year

PRODUCT DETAILS : PROPERTIES / PRODUCT DESCRIPTION

Marble Coat is a coating solution that protects marble and other highly polished stones against UV, acid rain, salt water and acidic food & drink.

Aqueous Guard™ Marble Coat forms a permanent barrier layer that bonds chemically with the substrate, curing at room temperature and atmospheric humidity. The surface protected with Marble Coat can be cleaned repeatedly without degrading the coating.

TECHNICAL DATA

Appearance: Clear / colorless liquid | Binder base: Organic silane / SiO₂ | Solvent base: Low VOC | Thickness cured: ~12um nominal (+/- 2um) | UV: Stable

AQUEOUS GUARD™ STONE COAT 2

Impregnating polymer coating to prevent chemical attack & staining, whilst creating an easy to clean surface that's water beading, for: All natural stone surfaces, bathrooms, stone sinks. Application: Pump spray. Warranty: 12 months

PRODUCT DETAILS : PROPERTIES / PRODUCT DESCRIPTION

Stone Coat 2 has been developed and tested to protect your stone from water, oil stains, dirt & grime as well as mold mildew build up.

Aqueous Guard™ Stone Coat 2 gives your stone surface hydrophobic & oleophobic properties seriously reducing maintenance and cleaning regimes as well as time spent cleaning. Water and liquids simply bead and roll off the substrate. The capillaries are reduced but not shut off completely meaning the stone is still able to breathe naturally, but will not allow pollutants or dirt & grime to ingress into the stone due to the repellent nature of the coating. Cleaning of the surface can take place with just water once coated with Aqueous Guard™ Stone Coat 2.

TECHNICAL DATA

Appearance: Clear / colorless liquid | Cure time: 24 hours | Binder base: Polymer | Touch dry: 1-2 hours | Thickness cured: ~0.5um | UV: Stable

AQUEOUS GUARD™ FABRIC & LEATHER COAT

Impregnating polymer coating to prevent staining, creating a water beading surface for: All fabric surfaces.

Application: Spray applied. Warranty: No warranty, lasts up to 12 months depending on wear.

PRODUCT DETAILS : PROPERTIES / PRODUCT DESCRIPTION

Aqueous Guard™ Fabric & Leather Coat has been developed and tested to protect your fabric and leather surfaces from salt water staining, drink spillages, dye transfer, colour fade and even those harsh stains such as red wine.

Fabric & Leather Coat gives your leather hydrophobic & oleophobic properties significantly reducing maintenance and cleaning regimes as well as time spent cleaning. Water and liquids simply bead and roll off the leather, making it the ideal solution for all fabric and leather surfaces that are subject to stains and spillages.

TECHNICAL DATA

Appearance: Clear-milky white liquid | Cure time: 24 hours | Binder base: Polymer | Touch dry: 1-2 hours | Thickness cured: ~0.5um | UV: Stable

AQUEOUS GUARD™ TEAK COAT

Impregnating polymer coating to prevent chemical attack & reduce silvering, whilst creating a stain free water beading surface for: All natural wood substrates.

Application: Spray or roll.

WARRANTY AVAILABLE

ALL SOFT & HARD WOOD

- UP TO 9 MONTH WARRANTY
- EASY CLEANING
- HYDROPHOBIC
- REDUCED MAINTENANCE & CLEANING

PROTECTION FOR YOUR WOOD AGAINST:

- SALT WATER
- POLLUTANTS
- UV COLOUR CHANGE
- DIRT & GRIME

PRODUCT DETAILS

PROPERTIES / PRODUCT DESCRIPTION

Aqueous Guard™ Teak Coat has been developed and tested to protect your wood from salt water staining, UV damage, dirt & grime.

Teak Coat helps to maintain the colour and texture of wood allowing dirt and soiling to be removed easily. Teak Coat offers very efficient protection against all types of staining including coke, coffee and red wine. Teak Coat is suitable for both indoor and outdoor use. The use of Aqueous Guard™ Teak Coat will work to slow down the ageing process of the wood surface being treated.

TECHNICAL DATA

Appearance: Clear / colorless liquid | Cure time: 48 hours | Binder base: Polymer | Touch dry: 2-4 hours | Thickness cured: ~0.5um nominal | UV: Stable

AQUEOUS GUARD™ FIREBUG

Impregnating non toxic Firebug Guard prevents combustion at high temperatures. Also kills bacteria and viruses. Prevents cockroach and bedbug infestation.

Application: Spray

ALL FABRIC SURFACES

- 12 MONTH WARRANTY
- FIRE PROTECTION
- ANTI BACTERIA
- ANTI VIRUS
- PREVENTS BED BUGS INFESTATION

PROTECTION FOR YOUR FABRICS AGAINST:

- FIRE
- BACTERIA
- VIRUS
- INSECTS

TESTIMONIALS

MY Intimis has used the Aqueous Ceramic Hand Application and the Aqueous Ceramic Clear Coat.

“We have used the hand application on the whole hull which has 13 year old painted gel coat. The paint was dull in areas and we were having to use aggressive products to remove the stains. Thanks to Aqueous my old paint looks new and glossy. It’s really easy to clean, the soot comes straight off with a brush and water. We have also used the Ceramic Clear Coat to restore the gloss on areas that weren’t re painted. It has given the areas the look of new paint at a fraction of the cost and it was a very quick process.”

Captain Martin Parry - MY Intimis

Aqueous Guard™ Marine testimonial from Brendan Furey Captain of MY Integrity

Aqueous Guard™ Marine

“Claire and her support team have applied the ceramic coating to our water line and all our exterior stainless. This amazing coating cuts days off our exterior crew polishing time. The fumes from engines and generators, just falls off when wiped with a glove, and the stainless stays polished and rust free for almost the entire season. I can fully endorse Claire and her team as they are professional, efficient and all work is to a very high quality. “
